

List of Specialist Teachers/Psychologists who can carry out diagnostic assessments

Please note this does not constitute a University approved list. You are free to disregard it and seek an assessment from a psychologist of your own choice. We recommend that you choose a Chartered Psychologist or a Specialist Teacher who holds a Practising Certificate that has experience with working with adults.

If you want to use a different psychologist **The British Psychological Society** has a section on its website “find a psychologist”. This is available at www.bps.org.uk/e-services/find-a-psychologist/directory.cfm

Dealings between yourself and psychologists are strictly confidential and any disagreements about outcomes or the conduct of the assessment should be addressed to the psychologist concerned or referred to the professional body (e.g. British Psychological Society, Dyslexia Institute).

If you are applying for funding for your diagnostic report or a post 16 updated diagnostic report through the Greenwich Hardship Fund (GHF) do not make an appointment until you have confirmation that the fund will cover the costs. If you do receive funding from GHF please mention this when you make an appointment. You may be asked to send a copy of the letter before your appointment or to take it with you when you attend.

Name	Phone Email	Address	Assessment type	Cost	Waiting Time/ area	Updated
